Dear VTA Secretary -

Please pass the following along to the board.

Thanks,

Pria Grave

Dear Board Members:

I live near the California Avenue/El Camino stop and regularly use the 22 and 522 busses.

On Friday, March 20th, the weather was extremely hot, about 90 by 11:00 a.m. I arrived at the stop (60512) about 11:10, expecting to catch a bus, either of the two, within a short time.

Unfortunately the **next three scheduled busses** failed to arrive!

There should have been a 22 at 11:16 and another at 11:32. Neither arrived. And there should also have been a 522 at 11:21. It also failed to arrive.

As a result, **I had to wait until 11:36 AM** when the next 522 finally showed up!

There were a total of 6 passengers including myself stuck there in the heat waiting for nearly half an hour!

The driver of the 522 explained that there were lots of call outs that day which was why there were no busses for about half an hour. He also concurred with me that this has been happening frequently. I've had to wait extended periods for busses that failed to arrive fairly frequently recently.

This needs to get fixed! We want people out of their cars but if one cannot rely on the busses, we'll all have to return to driving.

Regards,

Pria Graves

p.s. I'm also copying the Palo Alto City Council. I'm sure they won't be happy about this either!
